*Old Business*

Novice and Street tire classes start at next event

Decals were discussed. Agreed to add web address to TRSCCA decals and explore using pylon shaped decals to be awarded for trophies.

Small and XX-large helmets are on order so we can accommodate all sizes.

Steve has given permission to Atlanta Region to host the Club Race at Nashville Superspeedway this year.

*New Business*

Mecury Spring Tour was discussed as proposed by the National Office.

12 workers are needed to work from 7-5

Club will be paid \$1,950 for our time and efforts.

Jeff Mellow will propose this to the club to determine if there is enough interest and also head up the hunt for workers.

Pay will be as follows:

Workers: \$150 each

Organizer: \$200

TRSCCA: \$100

The new charter has been received and all records appear current.

Officers received an email from Wes Duenkel expressing interest in photographing our events. All agreed it was a good idea to allow this.

We will contact the guy with 334 Design about making numbers and class win decals.

Club speakers still need to be replaced. Dan donated wireless microphone setups for club use. A discussion took place on what all may need to be replaced, FM transmitter, speakers, and amp? Randall will get a few options for proposal at next meeting. Budget of \$2000 was recommended.

Nokian Tyres has donated 2 more sets of tires to be given away at our RallyXs this year. We will try to give these out prior to the national event so that our members will have a better showing there on their new tires.

Steve motions to adjourn at 7:53PM
